

BESPOKE WEB SOLUTIONS

Showcasing your business to the world

Your website is the 24 hour shop window into your business. If you don't have a website then your business is missing out on a huge marketing and sales opportunity.

Trisoft is a software development organisation that designs, develops and hosts websites tailored to the needs of your business.

Understanding your requirements

Trisoft will work closely with you, learning and understanding exactly what is required from your website. We then combine the right mix of experience, imagination and innovation to design a website that enhances your corporate image and provides a second-to-none information and marketing platform.

We are specialists in developing websites which allow you to update and manage the content yourself. This gives you the independence and ability to ensure your content is kept up-to-date easily and quickly, keeping support costs to a minimum.

Hosting and support

Backing up the website design and development capability of Trisoft is a highly resilient hosting infrastructure that ensures your web site is secured and available around the clock. Using industry-leading technologies Trisoft is able to provide site hosting, domain registration, DNS management, secure transaction processing and domain registration services. This allows Trisoft to help you with all aspects of your presence on the internet.

Microsoft Gold Certified Partner

As a Microsoft Gold Certified Partner, we use Microsoft technology to build websites that are easy to use, navigate and administrate.

Accessibility

Trisoft is committed to developing websites that are accessible and usable by all people, including those with disabilities. We develop sites that adhere to guidelines set by The UK Disability Discrimination Act 1995.

Trisoft works with a variety of companies across a number of markets. Please find below a small selection of websites we have developed:

"Visitors have definitely increased since the launch of our Trisoft developed site. The design is much more creative and matches our company branding and position. It is far more attractive, easy to find, simple to navigate and portrays the right image for our company."

www.owlertonstadium.co.uk

"Our new website provides an interactive area for our residents, which allows them to view their rent statement, report and track the progress of repairs, and access many of our services on-line. It also provides a wealth of up to date information. We are pleased with our website and have gained good feedback from our residents."
